INTRODUCTION

Grand Mirrors, the leading global mirror company, designs and manufactures premium quality lighted mirrors for hotels, salons, and restaurants, as well as for residential projects.

Our ongoing research and development make Grand Mirrors thinner, brighter, and easier to install than ever before.

Every day, we are driven to deliver the highest quality mirrors, equipped with the latest features and technologies to our customers in the US and around the world.

WHY A LIGHTED MIRROR MAKES SENSE?

People who have one, know why, and they will never use a regular mirror without light anymore.

When the light is integrated in the mirror, you will have a clear view without shadows on your face because the light is directed towards you.

You don't need to worry anymore where to install expensive light fixtures in your bathroom or salon, because a Grand Mirrors lighted mirror will always provide the perfect light when you look in the mirror

OUR PRODUCTS

LUX

With Grand Mirrors LUX, the mirror is the center point of your bathroom that you will use and enjoy for many years to come. Fully made to measure with a wide variety in LED layouts, and choice of LED colors. Grand Mirrors LUX will fit and upgrade every bathroom.

BUSINESS SOLUTIONS

Professional

Founded in 2001, we have almost 20 years' experience in the mirror and technology market and with Grand Mirrors, we offer highly customizable mirror solutions so that you can let your creativity flow and design the salon the way you want.

Hospitality

Trusted around the world, Grand Mirrors is the preferred bathroom mirror supplier of hotels, resorts, high-end condominium projects and much more.

With countless hospitality projects completed over the past decade, Grand Mirrors continues to innovate new styles and technologies and make mirrors more stylish and useful in any bathroom.

CUSTOM MIRRORS

More than just a reflective sheet of glass, mirrors are the centerpiece of a space. Be it an office, a living room, or even a bathroom, having the right mirror on display can truly bring everything in the room together - making the spaces you inhabit a pleasant experience for yourself and for everyone who passes through.

But what do you do when, after searching and searching, you just can't find the mirror that's perfect for *you*? What do you do when, forget the style, you can't even find a mirror that can *fit* where you need it to?

We at Grand Mirrors believe in making mirrors that are made to measure, tailoring every item we produce to suit your needs - all while still being unbeatable in quality and value for money.

ANY SIZE, ANY SHAPE

With our high precision automatic class cutting machines, we can reproduce any shape you want with extreme accuracy and sizes up to 23 feet x 8 feet.

FLEXIBLE QUANTITIES

Grand Mirrors is very flexible. We accept orders in any quantity and size. So you can order 1 mirror or 1,200 mirrors, you are welcome at Grand Mirrors.

ADD-ONS

Need even more out your mirror? We offer a wealth of add-ons that can take your mirror from an already gorgeous setpiece, to a marvel of technology that you'll be using for a long, long time.

Be sure to check our website for a complete list of available add-ons and what mirrors they can be added to.

CUSTOM CUT-OUTS

We make custom cut-outs in the mirror anywhere you like for a faucet or a light fixture. With our CNC computerized product process, we produce and cut the mirrors with extreme precision.

FRAMES

With a wide variety of Stainless Steel and Black Walnut wooden frames, you can give the mirror a beautiful finished look. Most frames close the gap between the wall and the mirror.

BEVELED EDGES

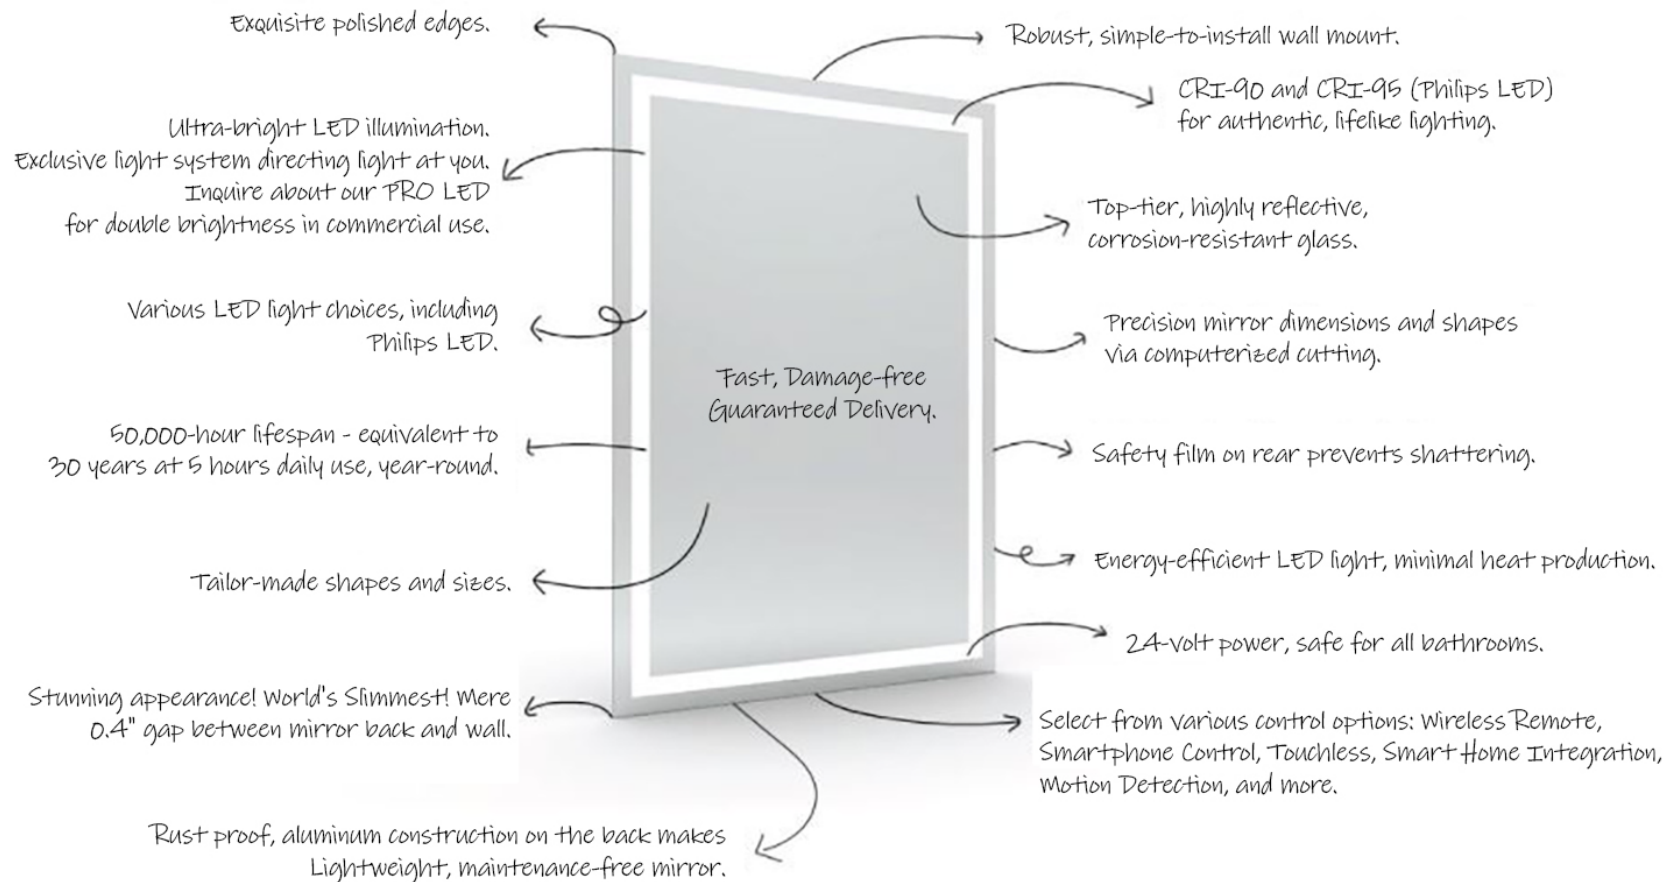

Create a frame in an elegant way with a beveled edge. Available on most mirrors with bevel widths up to 1.5".

DEFOGGERS

Equip your mirror with a defogger to keep it clear and clean after enjoying a hot shower. Available in different shapes and sizes.

Grand Mirrors is not just another bathroom mirror.

OUR TECHNOLOGY

With all of the lighted mirrors on today's market, it's easy to wonder what exactly the difference between all of them is. What makes a sheet of glass so special? Is it in the lights? The shine? For us here at Grand Mirrors, what separates us from the competition is our dedication to you, our clients. We want only the best of the best reaching you and that means we're continuously innovating to make sure you get an investment you'll enjoy for years and years after.

Here are just a few of the many technologies we've developed over the years to ensure that every mirror is truly a Grand Mirror.

WHY GRAND MIRRORS?

MADE TO MEASURE

Why settle for a standard size that does not fit perfectly while we can make your mirror exactly the size you want? With our computerized CNC cutting machines, we make mirrors with extreme precision.

LIGHT TECHNOLOGY

Captured LED Light

Grand Mirrors are built with a unique light system which is up to three times brighter than other mirrors and captures the light on the sides and the back of the mirror. Other, similar looking mirrors are often designed for decoration rather than for effective lighting.

Equal Light Distribution

Our mirrors are installed with a diffuser to spread out the light equally over the lighted parts of the mirror resulting to a high quality, beautiful and efficient lighting.

THICKNESS

Our lighted mirrors look so much better because they are 0.4" (10mm) deep behind the mirror compared to other mirrors which usually have 1.5" (35mm) to even 2.3" (60mm) thickness. (Showing is our Integrated Light Mirror. Thickness varies per model.)

GRAND MIRRORS

OTHER MIRRORS

GRAND MIRRORS

OTHER MIRRORS

ELETRICAL SAFETY

All Grand Mirrors products are powered with 12 and 24-volts which is safe to use in the bathroom compared to most mirrors that are directly powered with 110 or 220 volts. Why settle for high voltage if you can have complete safe 12-24 volt mirror?

12 - 24 Volts
Non-electrocuting

110-220 Volts
Electrical Hazard

SECURITY FILM

All Grand Mirrors have a security film on the back that prevents dangerous, sharp mirror parts fall on the floor in case the mirror breaks. This also makes Grand Mirrors compliant to be installed in public areas and for professional use like in salons and hotels.

WALL MOUNT

Grand Mirrors have 2 long wall mount rails to secure a well mounted mirror. Similar lighted mirrors often only have a hang construction on the top which makes the mirror move easily.

GLASS QUALITY

Our mirrors are made with very high quality, corrosion and rust-free mirror glass that shows a beautiful reflection. This makes Grand Mirrors a worry-free investment you will enjoy for many years to come.

LIGHT OPTIONS

Grand Mirrors integrates a light transfer technology, which causes the light to be directed right towards you resulting in a very effective light that is up to 3 times brighter than other mirrors.

Choose from Cool, Warm, True Light, Multi-Color, or Philips LEDs.

For the Cool, Warm True light, we have wireless dimmers available. You also have the option to add Philips LED lights with dimmers.

SMART PHONE CONTROL

(Multi Color LED only) Simply download the App and instantly control the colors and brightness. You can also choose from different programs that best suits you.

GRAND MIRRORS TRUE LIGHT TECHNOLOGY

Grand Mirrors
True Light

Other Mirror
Intergrated Light

With True Light Technology, you don't need to choose between cool and warm light anymore.

Getting ready for your day at work? The cool tone simulates the light in the office, while the warmer color will represent the color for a night out.

Do you want to match the light exactly with other lights in the bathroom?

Choose from the full spectrum between 2700K and 6200K and quickly set the color and brightness with the wireless remote control.

TOUCH CONTROL 430

Easily control your lighting with our Touch Control 430 remotes, included with every purchase of a Grand Mirrors True Light product.
